Sandbar

OUR STORY

Sandbar is a family swimwear brand, set up by a family of divers that are passionate about our oceans.

Having seen the ocean plastic issue getting worse, they believed enough was enough and wanted to make a difference.

Their aim was firstly to create a way to recycle plastic bottles and prevent them from going into the oceans by funding ocean plastic removal through our conservation partners.

Every piece of Sandbar Swimwear is made from recycled plastics - and funds the removal of 1 kilo of ocean plastic along coast lines, water ways and beaches.

<https://www.wearesandbar.com/pages/our-story>

OUR PURPOSE

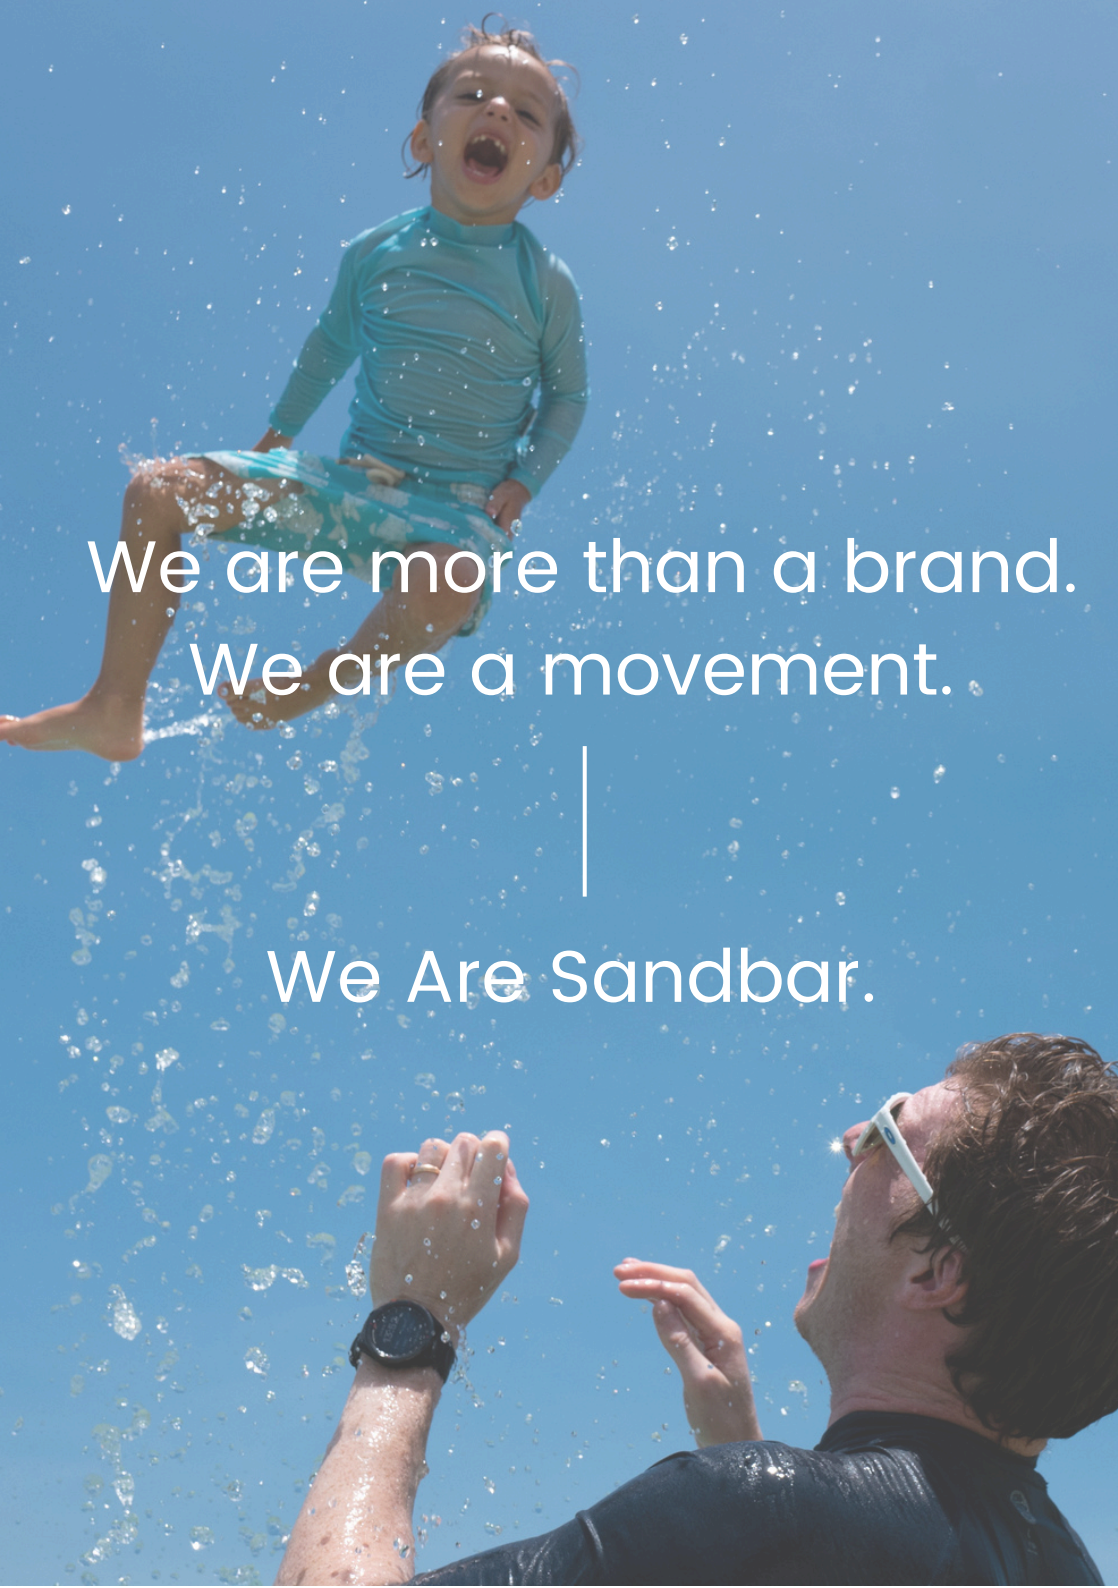

Our purpose is to bring families together.

With a focus on quality and design, we want to drive education around protecting our oceans for future generations.

Ultimately, our brand's goal is to inspire families to be a part of a community of like minded eco warriors that shop sustainably.

Do good. Feel good. For Our Tomorrow.

Un-Trashing Our Oceans One Swimsuit At a Time

We are more than a brand.
We are a movement.

We Are Sandbar.

OUR MISSION

Our mission is to remove 1 MILLION KILOS of plastic from our oceans through funded beach clean ups.

As of Jan 2026 we have removed over 50,000kgs of plastic from the ocean!

In addition, our swimwear is made from 4-10 recycled plastic bottles and we will always use recycled materials in our pieces to re-use waste and reduce our footprint on the earth.

CLEANING OCEANS

We work with **Seven Clean Seas**, removing plastic from impacted communities and water ways.

Collection initiatives including hiring **large teams of waste collectors**, installing river barriers to stop plastic leakage and building large plastic cleaning & sorting facilities.

Their projects **employ local residents** under fair conditions to meticulously collect, sort ocean plastic waste. Instead of contributing to landfill, these go back to corporates to reuse, reducing reliance on virgin plastics.

Non recyclable plastic is repurposed into LDPE into durable corrugated plastic roof plates or resell to major brands to prevent virgin plastics being made.

Together, we **aspire** towards a cleaner, more sustainable future for coastal communities and our ocean.

Seven
Clean
Seas

An ocean
without plastic.
Picture it.

We are earth optimists.

WE SEE OPPORTUNITY IN MISTAKES,
POSSIBILITY IN FAILURE, AND HOPE IN
DARK PLACES (LIKE THE BOTTOM OF
YOUR RECYCLING BIN).

REPREVE

ECO FABRICS

Swimwear

Our fabric is made using REPREEVE, a globally recognised sports performance fibre made from 100% recycled materials.

1. REPREEVE Polyester is 100% recycled plastic bottles. (Post consumer waste)
2. REPREEVE Nylon is 100% recycled nylon cut offs collected from other major brands. (Pre consumer waste)

A full-body photograph of a woman with long, dark, wavy hair, smiling broadly. She is wearing a bright red, ribbed, two-piece swimsuit consisting of a halter-neck crop top and high-waisted bottoms. Her right hand is raised to her hair, and her left hand is on her hip. The background is a plain, light-colored wall.

Thanks, it's recycled.

A young boy and girl are sitting on large, grey rocks on a sandy beach. The boy is on the left, wearing blue swim trunks with orange lobster patterns and a white wristband. The girl is on the right, wearing a red, white, and blue striped swimsuit and holding a white plumeria flower. They are both smiling warmly at the camera. The background shows a rocky coastline under a bright sky.
